Deadline

20/07/2023

Distressed Companies

No

Sector

Renewable Energy

Do you have a direct mandate from the buyer or seller?

Yes

of Employees

Deal Structure

Unknown

Investment

Reason For Selling

CombiFuel® is a newly developed alternative powertrain system which can be applied to almost all existing diesel or gasoline engines. The system enables significant savings of selected pollutant emissions by up to 95 % of fuel costs by up to 50 % and of total costs of ownership (TCO's). To be able to implement the idea of Combifuel's Green Revolution the company is seeking a USD/EUR 7 Million loan.

Business Description & Market Information

The Swiss company CombiFuel Swiss AG is based in the larger metropolitan area of Zürich and presents promising product solutions for the immediate and cost-effective reduction of greenhouse gas emissions and general operating costs (TCO), through the targeted use of liquid petroleum gas (LPG/autogas). The company is primarily engaged in the development, production, and distribution of alternative propulsion systems for conventional combustion engines (gasoline & diesel).
